#### **4. Zoning Administrator's Report**

There was no report from the Zoning Administrator.

#### **5. Comments for Items Not On the Agenda**

Seth Hopkins was made aware of upcoming lawsuit from the Vermont Law School against the BLSG and is asking if the town will be asking for interested party status in the litigation. Dave Atherton said that we would support the BLSG. **Motion by Seth Hopkins, Brian Coolidge and Tracy Wyman that the town request interested party status of the Vermont Law School lawsuit of the BLSGP. The motion passed unanimously.**

Butch Shaw reported an updated to last September's meeting with the Department of Environmental Conservation where there was a discussion on helping people with the 25% match that was required for the FEMA buy-outs. After that meeting he started to look for funding through the State. After much looking and research the money has been found to provide the 3 current properties with the 25% that was required for the buy-outs. VHSV-Grant Program estimated the match at \$125,554 for those three properties. Dave Atherton stated that they will still need to wait for FEMA to give instructions and this could continue for at least two years. The appraisal process has not started on these properties yet. Seth Hopkins asked if this allows the homeowners to receive the full value of the home between what FEMA pays and the grant money.

Nicole McPhee attended the meeting to announce her running for the Rutland County Probate Judge position that William Candon will be vacating. The primary for the Probate Judge in Rutland County is on August 14, 2018 and she is asking for people to come out and vote during the Primary. If you have any questions for her, please see her FaceBook Page or call her directly.

#### **6. Financial Management Questionnaire**

Town Treasurer has submitted the questionnaire.

Doug Bailey asked about the 4<sup>th</sup> line down in regards to dual control of opening mail and completing the deposits. He would like to see dual control with the opening of mail and depositing of checks as that is not done currently. He would suggest that it would be changed.

Seth Hopkins asked about the Board Members attended financial training-the training is more geared towards auditor that is currently available. Stated that they might want to look into having some financial training for the Board.

Seth Hopkins also asked about non-town money being deposited into Town Accounts. The Chamber had deposited some money that was non town money-they were funds that had been liquidated from the chamber revolving loan fund. This should no longer happen as Bernie Carr believes that there are no longer any loans being paid this way.

Seth Hopkins also asked about receiving copies of the financial operations policy/procedures: Requested fresh copies to take home for the Board to have.

There were no objections to signing the Financial Management Questionnaire stating that they have received it with the above comments made.

#### **7. Davenport Solar-Update Resolution of Support**

Update to the resolution that was given to them two years ago.

Motion by Doug Bailey/Tracy Wyman to approve the updated resolution of support for Davenport Solar.

Re : Old Basin Rd

Dave,

I would like you to request the selectboard "Throw Up" the north end of Old Basin Rd. This section of the road enters my farm pasture land and drops down into a section of wet land that has not been used for vehicle traffic for many years. At this time there are about ten homes on Old Basin Rd and the travel section dead ends at my property line. The road is class 4.

I have attached a site plan that was prepared by Lincoln Applied Geology that shows the land / road. I have also enclosed short statements of support from adjacent land owners. We have had problems with unauthorized ATV use on our land as well as leaving livestock gates open. Our plan is to block off the end of the road permanently.

Thank You

  
Doug Bailey

To Whom it may concern,

I am writing this as a land owner at the very end of Old Basin road, whom wishes to have the road ""thrown up" or blocked from traffic making its way beyond our driveway. We were fortunate enough to have found such a nice piece of property that is as quiet and peaceful as this. Those attributes would be appealing to anybody, but its most desirable quality is the peace of mind that we have when our 9 month old daughter is out playing in our yard. I don't have to worry about a car speeding by, or a four wheeler flying down the road. We purchased this land with the idea of raising a family that can enjoy what the land has to offer, without the worry of heavy traffic or recreational vehicles constantly passing by. We love the land and hope it never has to change.

Sincerely,  
Jon Sagendorf

##### Subchapter 002 : Laying Out, Altering, Reclassifying, Or Discontinuing Highways By Petition To Selectboard

(Cite as: 19 V.S.A. § 708)

#### § 708. Petition

(a) Persons who are either voters or landowners, and whose number is at least five percent of the voters, in a town, desiring to have a highway laid out, altered, reclassified, or discontinued, may apply by petition in writing to the selectboard for that purpose. A person who is a landowner in a town, desiring to have an unidentified corridor which passes through or abuts his or her land discontinued or altered, may apply in writing to the selectboard for that purpose. The selectboard may also initiate these proceedings on its own motion.

(b) A class 4 highway need not be reclassified to class 3 merely because there exists within a town one or more class 3 highways with characteristics similar to the class 4 highway. In considering whether to reclassify a class 4 highway to class 3, consideration may be given as to whether the increased traffic and development potential likely to result from the reclassification is desirable or is in accordance with the town plan. After examining the premises and hearing any interested parties, and if the selectmen judge that the public good, necessity, and convenience of the inhabitants of the municipality require the highway to be laid out, altered, or reclassified as claimed in the petition, they shall cause the highway to be surveyed in accordance with the provisions of section 33 of this title if the highway right-of-way cannot be determined and shall place suitable monuments to properly mark the bounds of the survey. If they decide to discontinue a highway, the discontinuance shall be in writing setting forth a completed description of the highway. (Added 1985, No. 269 (Adj.
