

# Brandon Historic Preservation Commission

## Minutes

**24 January 2019, 7:00 PM** at the Brandon Town Office Meeting Room

1. Call to Order

Quorum -- Jeff Stewart, Lance Mead, Richard Baker, John Peterson

Guests: Seth Hopkins, Dave Atherton, David Roberts, Karl Fjeld

2. Approval of Agenda

3. Discussion:

Park Street discussion

Plant elements to go in the bioswales and their impact on the appearance of the street's width, preserving its historic character as much as possible

Importance of plotting location of the hitching posts and mounting blocks and creating a new chart "A" with those locations clearly shown

Loss of trees over time and possibilities of replanting some of those lost. Dave Atherton will look into possibilities of replacing some as the project moves forward.

Richard brought up fact that road wasn't originally paved and suggested leaving shoulders unpaved. Others thought that it should be paved curb to curb

Dave Roberts volunteered to walk the final plan to every home on Park Street to be sure everyone understands what is to be done.

The sense of the Historic Preservation Commission is that the project should move forward, bearing in mind the concerns noted above.

4. Adjournment at 7:35
