**Kirk Thomas-** Act 250 was reviewed by the individuals who look at the three criteria and there were no concerns by any of the parties.

**Jeff-** When we received the packets, the fire department and rescue squad are not actually town government organizations. The new packets on the table are the completed packets and all are in the agreement of the application. Because we have a decision, Kirk has received his permit and the warning period will start tomorrow and there will be a 30 days window to appeal to the environmental court.

There were no questions from the board.

Being no further testimony, the hearing closed at 7:10pm.

Respectfully submitted
