

Community Heart & Soul®

— Guided by what matters most —

Community Heart & Soul is a resident- driven process that engages the entire population of a town in identifying what they **love** about their community, what **future** they want for it, and how to **achieve** it.

The seed for Community Heart & Soul was planted by a Vermonter, Lyman Orton, who is the proprietor of the Vermont County Store. The Community Heart & Soul model has been implemented in over 120 communities and 23 states, and the numbers are growing every year! Communities have experienced a range of benefits: an increase in volunteerism, a deeper understanding of what matters most to residents, and an increase in civility and respect among community members, just to name a few.

Come and learn more about how the Community Heart & Soul model can be part of Brandon's future! We are excited to tell you all about it.
